A mentor is a special friend — a caring person who listens to a child's fears and can calm those fears. It is someone who listens to his problems and can identify help and increase the child's confidence. A mentor is someone who listens to a child's dreams and ambitions, who can nourish those dreams and raise self-esteem.

A mentor is someone who plays and laughs with a child and brings joy to life.

Being a mentor is a golden opportunity to make a good change in someone's life and in your own. Mentoring offers the chance to pass on to another generation values and talents that are uniquely yours.
